

## Tracks at Roosevelt Academy

These are all the tracks that RA currently offers. A track consists of at least 3 consecutive courses, of which the highest (300-level) course is at the same level as you would get in the final year of a conventional BA program. Please select 3 tracks in which you are interested and mention them in your registration to become a Student for a Day. You are free to select tracks from all departments. We will attempt to bring you in contact with someone who is taking courses from your favorite tracks. Please note that we might not be able to accommodate all three of your selected tracks.
